Safety Data Sheet

gpcsilicones.com

Version: 2

Revision Date: November 29, 2017 Printing Date: February 9, 2019

1 – PRODUCT AND COMPANY IDENTIFICATION

1.1 Product Identifiers

PRODUCT NAME: PRODUCT NUMBER: DESCRIPTION: CAS NUMBER: EC NUMBER: **GP-208** C-2374-BULK PHENYLTRIETHOXY SILANE 780-69-8 212-305-8

1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available.

USE OF SUBSTANCE: Industrial / Chemical intermediate

1.3 Company Identifiers

MANUFACTURER:

Genesee Polymers Corporation G-4099 S. Dort Hwy. Burton, MI 48529 Tel (810) 715-5018 Fax (810) 742-8581 Email: cpiskoti@gpcsilicones.com

1.4 Emergency Contact Information

24 HR. EMERGENCY PHONES: CHEM*TEL (800) 255-3924 (Domestic) / (813) 248-0585 (International) Contract Number: MIS0002539

2 – HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

Classifications listed also are applicable to the OSHA GHS Hazard Communication Standard (29CFR1910.1200).

Skin Irrit. 2 H315 Causes skin irritation.

Eye Irrit. 2 H319 Causes serious eye irritation.

Classification according to Directive 67/548/EEC or Directive 1999/45/EC

R36/38 Irritating to eyes and skin.

Information concerning particular hazards for human and environment: Not Applicable

2.2 GHS Label elements, including precautionary statements

Genesee Polymers - GP-208

PAGE 1 of 10

Labelling according to Regulation (EC) No 1272/2008

The product is additionally classified and labelled according to the Globally Harmonized System within the United States. (GHS) The substance is classified and labelled according to the CLP regulation.

SIGNAL WORD:

Warning.

HAZARD DETERMINING COMPONENTS OF LABELLING:

Phenyltriethoxysilane

HAZARD STATEMENTS H315: Causes skin irritation.

H319: Causes serious eye irritation.

PRECAUTIONARY STATEMENTS

P280: Wear protective gloves/protective clothing/eye protection.

P264: Wash thoroughly after handling.

P303+P361+P353: IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.

Index number: 603-002-00-5 Index number: 603-002-00-5 Index number: 603-002-00-5 Intervention of first aid measures GENERAL INFORMATION: Immediately remove any clothing soiled by the product. Consult a physician. Show this safety data sheet to the doctor in attendance. Take affected persons out info fresh air. BREATHING (INHALATION: Supply fresh air: consult doctor in case of complaints. Provide oxygen treatment if affected person has difficulty breathing. In case of inregular breathing or respiratory arrest provide artificial respiraton. Immediately remove any clothing soiled by the product. Immediately uses with soap and water and rinse thoroughly. EYES: Remove contact lenses if worn. Rinse opened by the product. If Sime opened by the product of the product of the soap and water and rinse thoroughly. SWALLOWING (INGESTION): Do not induce voit ing: call for medical help immediately. Never give anything by mouth to an unconscious person. Rinse montout with water. Consult a physician. Atomore any clothing soiled by the product. Immediately. Never give anything by mouth to an unconscious person. Rinse montout with water and delayed Gastric or intesting disorders when ingested. Coughing. Triatu to symptoms and effects, both acute and delayed Gastric or intest with water this compound liberates ethanol which is known to have a chronic effect on the central nervous system. HAZARDS: Dager of impaired breathing. Vapours may cause drowsiness and dizziness. Atomore any colspan="2">Atomore finate the somach to form ethanol. Sep				,	
4 - FIRST-AID MEASURES 4.1 Description of first aid measures GENERAL INFORMATION: Immediately remove any clothing soiled by the product. Consult a physician, Show this safety data sheet to the doctor in attendance. Take affected persons out into fresh air. BREATHING (INHALATION): Supply fresh air, consult doctor in case of complaints. Provide oxygen treatment if affected person has difficulty breathing. In case of irregular breathing or respiratory arest provide artificial respiration. SKIN (DERMAL): Immediately remove any clothing soiled by the product. Immediately wash with soap and water and rinse thoroughly. EYES: Remove contact lenses if worn. Rinse opened eye for several minutes under running water. If symptoms persist, consult a docto SWALLOWING (INGESTION): Do not induce vomiting; call for medical help immediately. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician. 42. Most important symptoms and effects, both acute and delayed Gastric or imestinal disorders when ingested. Coughing. Irritant to kin and mucous membranes. Irritant to eyes. Difficulty breathing Nausea in case of ingostion. On contact with water this compound liberates ethanol which is known to have a chronic effect on the central nervous system. IMZARDS: A J Indication of any immediated tertofing and bycical treatment needed NOTE TO PHYSICIAN: This product reacts with water in the acid contents of the stomach to form ethanol. 5.1 Extinguishing agents: Alcohol resistant foam. Fre extinguishing agents. Alcohol resistant foam. Fre extinguishing agents. For safety reasons unsuitable extinguishing agents: Water. 5.2 Advice for fredighters Protective equipment:		EINECS:	200-578-6		
4 - FIRST-AID MEASURES 4.1 Description of first aid measures GENERAL INFORMATION: Immediately remove any clothing soiled by the product. Consult a physician, Show this safety data sheet to the doctor in attendance. Take affected persons out into fresh air. BREATHING (INHALATION): Supply fresh air, consult doctor in case of complaints. Provide oxygen treatment if affected person has difficulty breathing. In case of irregular breathing or respiratory arest provide artificial respiration. SKIN (DERMAL): Immediately remove any clothing soiled by the product. Immediately wash with soap and water and rinse thoroughly. EYES: Remove contact lenses if worn. Rinse opened eye for several minutes under running water. If symptoms persist, consult a docto SWALLOWING (INGESTION): Do not induce vomiting; call for medical help immediately. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician. 42. Most important symptoms and effects, both acute and delayed Gastric or imestinal disorders when ingested. Coughing. Irritant to kin and mucous membranes. Irritant to eyes. Difficulty breathing Nausea in case of ingostion. On contact with water this compound liberates ethanol which is known to have a chronic effect on the central nervous system. IMZARDS: A J Indication of any immediated tertofing and bycical treatment needed NOTE TO PHYSICIAN: This product reacts with water in the acid contents of the stomach to form ethanol. 5.1 Extinguishing agents: Alcohol resistant foam. Fre extinguishing agents. Alcohol resistant foam. Fre extinguishing agents. For safety reasons unsuitable extinguishing agents: Water. 5.2 Advice for fredighters Protective equipment:					
4.1 Description of first aid measures GENERAL INFORMATION: Immediately remove any clothing soiled by the product. Consult a physician. Show this safety data sheet to the doctor in attendance. Additional information

Eliminate all ignition sources if safe to do so. Cool endangered receptacles with water spray.

Genesee Polymers - GP-208

PAGE 3 of 10

6 - ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

Particular danger of slipping on leaked/spilled product.

Ensure adequate ventilation.

For large spills, use respiratory protective device against the effects of fumes/dust/aerosol.

6.2 Environmental precautions:

Do not allow to enter sewers/surface or ground water.

Inform respective authorities in case of seepage into water course or sewage system.

6.3 Methods and material for containment and clean up

Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders.)

Dispose contaminated material as waste according to item 13.

Ensure adequate ventilation.

Send for recovery or disposal in suitable receptacles.

6.4 Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment

See Section 13 for disposal information.

7 – HANDLING and STORAGE

7.1 Precautions for safe handling

Use only in well ventilated areas.

Avoid splashes or spray in enclosed areas.

Prevent formation of aerosols.

Information about fire – and explosion protection:

Keep ignition sources away - Do not smoke.

Protect against electrostatic charges.

Fumes can combine with air to form an explosive mixture.

Flammable gas-air mixtures may form in empty receptacles.

7.2 Conditions for safe storage, including any incompatibilities Storage:

Requirements to be met by storerooms and receptacles:

Store in a cool, dry place.

Provide ventilation for receptacles.

Avoid storage near extreme heat, ignition sources or open flame.

Information about storage in one common storage facility:

Store away from foodstuffs.

Further information about storage conditions:

Store in cool, dry conditions in well sealed receptacles.

Keep container tightly sealed.

7.3 Specific end use(s)

No further relevant information available.

8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

Additional information about design of technical facilities: No further data; see item 7

8.1 Control parameters

Ingredients with limit values that require monitoring at the workplace:

Ingredient	CAS number	Data type	Value
None	N/A	N/A	N/A

DNELs No further relevant information available.

Genesee Polymers - GP-208

PNECs No further relevant information available. **Ingredients with biological limit value**

Ingredient	CAS number	Data type	Value
None	N/A	N/A	N/A

Additional information: The lists valid during the making were used as basis.

8.2 Exposure controls

Personal protective equipment:

General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Use only in well ventilated areas

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Do not inhale gases / fumes / aerosols.

Avoid contact with the eyes and skin.

Respiratory protection:

Use suitable respiratory protective device when high concentrations are present.

Use suitable respiratory protective device when aerosol or mist is formed.

For large spills, respiratory protection may be advisable.

Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. **Eye protection:**

Body protection: Protective work clothing **Limitation and supervision of exposure into the environment** No further relevant information available. **Risk management measures** See section 7 for additional information. No further relevant information available.

Odour:	Not determined.
Odour threshold:	Not determined.
pH value:	Not determined.
Change in condition:	
Melting point/Melting range:	Not determined.
Boiling point/Boiling range:	112° C (234° F)
Flash point:	96 ° C (205 ° F)
Flammability (solid, gaseous):	Not applicable.
Auto/Self-ignition temperature:	234° C
Decomposition temperature:	Not determined.
Self-igniting:	Not determined.
Danger of explosion:	Product is not explosive. However, formation of explosive air/vapour mixtures are possible.
Explosion limits:	
Lower:	Not determined.
Upper:	Not determined.
Vapor pressure:	< 1 mm Hg @ 75° C
Density at 25 °C:	Not determined.
Relative density:	0.996 g/cm ³ at 25° C
Vapour density at 20 °C	Not determined.
Evaporation rate:	Not determined.
Solubility in / Miscibility with	
Water:	Insoluble.
Partition coefficient	
(n-octanol/water)	Not determined.
Viscosity:	
Dynamic:	Not determined.
Kinematic:	1.7 cSt @ 25° C
VOC content:	0.1%
9.2 Other information	No further relevant information available.

10 – STABILITY and REACTIVITY

10.1 Reactivity 10.2 Chemical stability Thermal decomposition / conditions to be avoided Keep away from heat and direct sunlight. **10.3 Possiblility of hazardous reactions** Flammable. Reacts with oxidizing agents. Reacts with strong acids. Reacts with water. Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomised. Toxic fumes may be released if heated above the decomposition point. **10.4 Conditions to avoid** Moisture Keep ignition sources away - Do not smoke. Store away from oxidizing agents. Keep away from heat and direct sunlight. **10.5 Incompatible materials:** No further relevant information available. **10.6 Hazardous decomposition products:** Carbon monoxide and carbon dioxide. Danger of forming toxic pyrolysis products.

PAGE 6 of 10

11 – TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects Acute toxicity (LD/LC50 values):

Ingredient	CAS Number	Data Type	Value
Ethanol	64-17-5	LD50 oral rat	124.7 mg/l/4h
Phenyltriethoxysilane	780-69-8	LD50 oral rat	2830 mg/kg
Phenyltriethoxysilane	780-69-8	LD50 dermal rabbit	3150 mg/kg
Phenyltriethoxysilane	780-69-8	ATE US (oral)	2830.000 mg/kg body weight
Phenyltriethoxysilane	780-69-8	ATE US (dermal)	3150.000 mg/kg body weight

Primary irritant effect:

On the skin: Irritant to skin and mucous membranes.

On the eye: Causes serious eye irritation

Sensitisation: No sensitising effects known.

Additional toxicological information:

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version. Irritant

12 – ECOLOGICAL INFORMATION

12.1 Toxicity

Aquatic toxicity: No further relevant information available.

12.2 Persistence and degradability No further relevant information available.

12.3 Bioaccumulative potential No further relevant information available.

12.4 Mobility in soil No further relevant information available.

Additional ecological information:

General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water.

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

12.5 Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

12.6 Other adverse effects No further relevant information available.

13 – DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Recommendation

The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Can be burned with household garbage after consulting with the waste disposal facility operator and the pertinent authorities and adhering to the necessary technical regulations.

Uncleaned packaging:

Recommendation: Disposal must be made according to official regulations.
