# Safety Data Sheet

gpcsilicones.com

#### Version: 4

Revision Date: January 26, 2019 Printing Date: January 26, 2019

#### **1 – PRODUCT AND COMPANY IDENTIFICATION**

#### **1.1 Product Identifiers**

PRODUCT NAME: **GP-504** PRODUCT NUMBER: DESCRIPTION: CAS NUMBER:

C-3074-BULK SILICONE FLUID 102782-97-8

1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available.

USE OF SUBSTANCE: Industrial / Paint additive

**1.3 Company Identifiers** 

MANUFACTURER:

Genesee Polymers Corporation G-4099 S. Dort Hwy. Burton, MI 48529 Tel (810) 715-5018 Fax (810) 742-8581 Email: cpiskoti@gpcsilicones.com

#### **1.4 Emergency Contact Information**

24 HR. EMERGENCY PHONES: CHEM\*TEL (800) 255-3924 (Domestic) / (813) 248-0585 (International) Contract Number: MIS0002539

#### 2 – HAZARDS IDENTIFICATION

#### 2.1 Classification of the substance or mixture

#### Classification according to Regulation (EC) No 1272/2008

The product is not classified as hazardous according to OSHA GHS regulations within the United States.

The substance is not classified as hazardous according to the CLP regulation.

The product is not classified as hazardous according to the Globally Harmonized System (GHS)

### Classification according to Directive 67/548/EEC or Directive 1999/45/EC

Not Applicable

Information concerning particular hazards for human and environment: Not Applicable

Genesee Polymers - GP-504

6.1 Personal precautions, protective equipment and emergency procedures
Ensure adequate ventilation.
6.2 Environmental precautions:
Do not allow product to reach sewage system or any water course.

Genesee Polymers - GP-504

PAGE 3 of 9

#### 6.3 Methods and material for containment and clean up Absorb with non-combustible liquid-binding material (sand, diatomite, acid binders, universal binders.) Dispose contaminated material as waste according to item 13. Send for recovery or disposal in suitable receptacles. **6.4 Reference to other sections** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment See Section 13 for disposal information. 7 – HANDLING and STORAGE 7.1 Precautions for safe handling Avoid splashes or spray in enclosed areas. Use only in well ventilated areas. Information about fire – and explosion protection: Keep ignition sources away - Do not smoke. 7.2 Conditions for safe storage, including any incompatibilities Storage: **Requirements to be met by storerooms and receptacles:** Avoid storage near extreme heat, ignition sources or open flame. Store in a cool, dry place. Information about storage in one common storage facility: Store away from foodstuffs. Store away from oxidizing agents. Do not store together with alkalis (caustic solutions). Protect from humidity and water. Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles. Keep container tightly sealed. Store at temperatures not exceeding 27 C/ 80 F Store receptacle in fume cupboard. 7.3 Specific end use(s) No further relevant information available.

#### 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

Additional information about design of technical facilities: No further data; see item 7

#### **8.1 Control parameters**

Ingredients with limit values that require monitoring at the workplace:

Ingredient	CAS number	Data type	Value
None	N/A	N/A	N/A

**DNELs** No further relevant information available. **PNECs** No further relevant information available.

#### Ingredients with biological limit value

Ingredient	CAS number	Data type	Value
None	N/A	N/A	N/A

Additional information: The lists valid during the making were used as basis.

Genesee Polymers - GP-504

PAGE 4 of 9

#### 8.2 Exposure controls

#### Personal protective equipment:

#### General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Avoid contact with the eyes and skin.

#### **Respiratory protection:**

Not required under normal conditions of use.

For large spills, respiratory protection may be advisable.

Use suitable respiratory protective device when high concentrations are present.

or large spills, respiratory protection may be advisable.

#### **Protection of hands:**

#### **Protective gloves**

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

#### Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

#### Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. **Eye protection:** 

Safety glasses

**Body protection:** Protection may be required for spills. Not required under normal conditions of use. **Limitation and supervision of exposure into the environment** Avoid release to the environment. **Risk management measures** No special requirements.

#### 9 - PHYSICAL / CHEMICAL PROPERITES

General Information	
Appearance:	
Form:	Liquid.
Colour:	Clear to slightly hazy.
Odour:	Slight
Odour threshold:	Not determined.
pH value:	Not determined.
Change in condition:	
Melting point/Melting range:	Not determined.
Boiling point/Boiling range:	Undetermined.
Flash point:	132 °C (270 °F) (PMCC)
Flammability (solid, gaseous):	Not applicable.
Auto/Self-ignition temperature:	Not determined.
Genesee Polymers - GP-504	

PAGE 5 of 9

Decomposition temperature:	Not determined.
Self-igniting:	Not determined.
Danger of explosion:	Product does not present an explosion hazard.
Explosion limits:	
Lower:	Not determined.
Upper:	Not determined.
Vapor pressure:	1.32 hPa (1 mm Hg)
Density at 25 °C:	0.975 g/cm <sup>3</sup> (8.136 lbs/gal)
<b>Relative density:</b>	Not determined.
Vapour density at 20 °C	Not determined.
Evaporation rate:	Not determined.
Solubility in / Miscibility with	
Water:	Insoluble.
Partition coefficient	
(n-octanol/water)	Not determined.
Viscosity:	
Dynamic:	140 cP
Kinematic:	Not determined.
9.2 Other information	No further relevant information available.

#### **10 – STABILITY and REACTIVITY**

#### **10.1 Reactivity 10.2** Chemical stability Thermal decomposition / conditions to be avoided Keep away from heat/sparks/open flames/hot surfaces - No smoking. 10.3 Possiblility of hazardous reactions Reacts with alkali (lyes). Reacts with oxidizing agents. Toxic fumes may be released if heated above the decomposition point. Reacts with alcohols. Reacts with amines. Reacts with acids. Reacts with peroxides and other radical forming substances. Reacts with water. Polymerisation. **10.4 Conditions to avoid** Store away from oxidizing agents. Keep ignition sources away - Do not smoke. Avoid acids. Moisture **10.5 Incompatible materials:** Oxidizers, strong bases, strong acids **10.6 Hazardous decomposition products:** Carbon monoxide and carbon dioxide. Silicon Oxides (SiOx)

#### 11 – TOXICOLOGICAL INFORMATION

#### **11.1 Information on toxicological effects** Acute toxicity (LD/LC50 values):

Ingredient	CAS Number	Data Type	Value
None	N/A	N/A	N/A

Genesee Polymers - GP-504

PAGE 6 of 9

#### Primary irritant effect:

On the skin: Slight irritant effect on skin and mucous membranes.

On the eye: Slight irritant effect on eyes.

Sensitisation: No sensitising effects known.

#### Additional toxicological information:

When used and handled according to specifications, the product does not have any harmful effects to our experience and the information provided to us.

The substance is not subject to classification according to the latest version of the EU lists.

#### **12 – ECOLOGICAL INFORMATION**

#### 12.1 Toxicity

Aquatic toxicity: No further relevant information available.

**12.2 Persistence and degradability** No further relevant information available.

12.3 Bioaccumulative potential No further relevant information available.

**12.4 Mobility in soil** No further relevant information available.

#### Additional ecological information:

#### General notes:

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.ater hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water.

#### 12.5 Results of PBT and vPvB assessment

**PBT:** Not applicable.

**vPvB:** Not applicable.

12.6 Other adverse effects No further relevant information available.

#### **13 – DISPOSAL CONSIDERATIONS**

#### **13.1** Waste treatment methods

#### Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes. Residual materials should be treated as hazardous.

#### **Uncleaned packaging:**

**Recommendation:** Disposal must be made according to official regulations.

#### 14 – TRANSPORTATION INFORMATION
